7-BIN MAILBOX SYSTEM

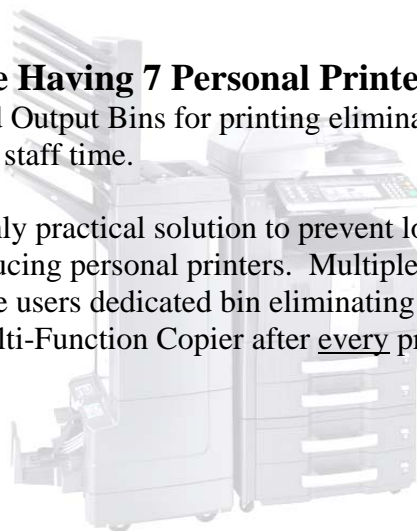

Typically, each power user or workgroup is assigned their own private bin for use as their "default" printer

It's Like Having 7 Personal Printers

Dedicated Output Bins for printing eliminates paper shuffle and saves staff time.

It's the only practical solution to prevent lost productivity when reducing personal printers. Multiple print jobs are held in the users dedicated bin eliminating the need to walk to the Multi-Function Copier after every print job!

Document Box: Secure Private Print and More

Confidential documents and commonly used forms are instantly available.

Up to 100 **Private Print Mailboxes** store up to 80,000 documents to improve productivity. User names may be assigned to each box with a passcode for security.

Forms and frequently used documents are saved from prints or scans to create an "on-demand" environment.

Proof and Hold prints one sample set to allow users to confirm actual output meets their needs to avoid print waste.

Fast 1-Button access to on-board Hard Disk document storage
